

# SPACE SOLAR

## SPACE SOLAR CHARTER

### Our Mission:

Space Solar is developing and commercialising Space Based Solar Power, an affordable, scalable clean energy technology. This will help the UK and partner nations transition sustainably to Net Zero, delivering energy security and improving the quality of life for people.

### Our Vision:

We are helping to deliver a safe and secure world, where clean energy is available to all, and natural resources are conserved.

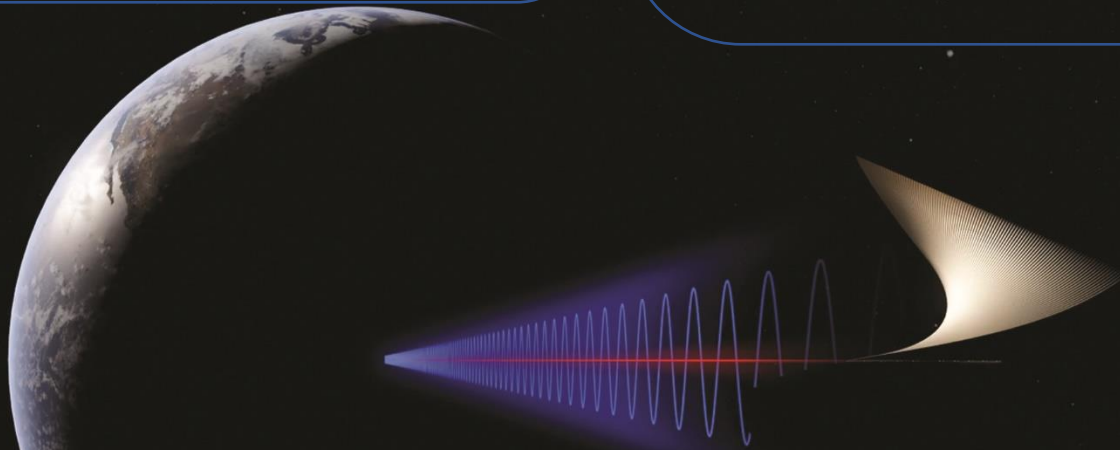

We are building build the space capabilities to benefit humanity and life on earth.

### Our Values:

We work collaboratively seeking the very best global talent, partners and suppliers who share our vision.

Safety and environmental stewardship are top priorities.

We inspire the next generation.

### PRINCIPLES

**Urgency:** Net Zero is an urgent challenge, and we will work at pace to establish an initial operational system by 2035.

**Value:** We will generate value for our shareholders, investors and partners along the development journey.

**Social responsibility:** We aim to create a more sustainable way of life, bringing societal benefit and sound environmental practice.

**International:** SEI has genuine global potential, building on its initial foundation in the UK. We welcome interest from potential partners in the appropriate areas.

**Diversity:** Different perspectives deliver better results. We treat all people equally considering only character and competence.

**Inclusion:** We are stronger together, and will look to bring others into relevant opportunities.

### BEHAVIOURS

**Ambitious:** We will be ambitious in our plans, and we will look for equal ambition in our members and stakeholders.

**Respectful:** We are not afraid to have challenging conversations but always respecting our different skills and knowledge.

**Communicative:** We communicate with our colleagues regularly and effectively.

**Considerate:** We are considerate of challenges that others might be being facing.

**Collaborative:** Delivering success needs the very best minds and expertise. We will collaborate within our teams, with our partners and suppliers, across sectors, with Governments and with our partner nations.

**Proactive:** We will not wait for others to take the first step.
